

Finally, you can rest easy with our new Custom Backup Program

Too many companies have found out the hard way that their data backup did not work – *when they were sure it would.*

To feel safest about your data you must use an effective backup system that is most appropriate for YOUR needs. MVP's new Custom Backup Program ensures that you have the right backup system for your company.

Avoid the disasters that cost you peace of mind and cost your company money, productivity, and headaches.

MVP Custom Backup Program

SMALL BUSINESS BACKUP

(data is less than 10 GB and the number of the servers performing backup is less than 3)

- ✓ Backup software and external backup drive installation and configuration
- ✓ Backup concept training

GOLD BACKUP SERVICE

- ✓ Totally customized solution specific to your needs
- ✓ Clone images of your servers
- ✓ Includes Training, Software, Configuration, and Restoration Testing

High capacity handheld hard drives offer an extra layer of safety because the backup can be taken off-site for storage.
